AWP Exam – Set 2 (eDAC Feb 2021)

Date: 02-08-2021

All questions carry equal mark (10 marks)

1. Refer to file "question1.html". The code for few HTML element has already been written. Add appropriate HTML, CSS or Bootstrap class to make the UI look as below:

   Note: Bootstrap files have been added in the HTML file.

2. Refer to the file "question2.html". The code for HTML has already been written. Add JavaScript or jQuery function to observe following behaviour:

   a. The "error" div will tell how many characters are remaining. Max allowed are 10 characters.

   b. Once it reaches 10 characters, it won't allow to type further and give error as shown in the image below.
